

WASHINGTON, D.C. — During a House Judiciary Committee hearing today, Congressman Steve King (R-IA) asked FBI Director Robert Mueller to investigate House Speaker Nancy Pelosi's accusation that the Central Intelligence Agency (CIA) lied to Congress.

“The CIA and other American defense and intelligence agencies cannot trust Nancy Pelosi with our national secrets, let alone our national security, until this matter is resolved,” King said. “We need an investigation into the basis of Speaker Pelosi’s very severe accusations. If true, there has been a serious violation of federal law. If false, American national security requires a new Speaker of the House. The severity of Speaker Pelosi’s accusations leaves no middle ground.”
