

Washington D.C.- Congressman Steve King (R-IA) today issued the following statement regarding the six month anniversary of the passage of ObamaCare. Congressman King is the lead sponsor of Discharge Petition #11, which would force an up or down vote on the repeal of ObamaCare once it is signed by 218 Members of Congress. To date, the petition has been signed by a bi-partisan group of 173 Members.

**“It has been six months since the Democrats passed ObamaCare over the wishes of the American people,”** said King. **“Speaker Pelosi once said that Congress had to pass ObamaCare so that Americans would know what was in it. Americans have now had six months to review this unconstitutional legislation, and the majorities seeking repeal continue to grow.”**

**“In the six months since ObamaCare passed, over 20 states have filed lawsuits challenging the law. Voters in Missouri have passed a state law protecting themselves from ObamaCare’s unconstitutional ‘individual mandate.’ A recent survey by Rasmussen Reports concludes that 61% of the American public wants ObamaCare repealed.”**

**“Americans should urge their representatives to sign Discharge Petition #11 and should also insist that Members of Congress pledge to withhold funding for ObamaCare’s implementation in future Congresses.”**
