

WASHINGTON, D.C. — According to the Congressional Budget Office, the 2019 non-Medicare population of the United States will include 14.1 million illegal aliens. CBO projects that up to 8.5 million of the 14.1 million illegal aliens in the United States in 2019 will not have health insurance, meaning passage of their bill will see to it that up to 5.6 million illegal aliens have health insurance - in large part because the liberal proposal does not include any requirements to verify the citizenship or immigration status of those receiving taxpayer-funded health benefits.

Congressman Steve King (R-IA), the Ranking Member on the House Immigration Subcommittee, today spoke against illegal aliens receiving health care benefits under the liberals' so-called health care reform proposal:

**“Taxpaying families, already weighed down by bailouts and massive spending bills, cannot afford to pay for health insurance for millions of illegal aliens. Hard and smart working lowans should not be forced to pay for illegal aliens to obtain health benefits under any health care reform plan.**

**“It is wrong to reward law breakers. The American people are speaking loud and clear and saying, ‘No health care for illegal aliens.’”**
