

King Participating in Energy Survey Next Week

Friday, June 26, 2009

WASHINGTON, D.C. - Congressman Steve King will participate in a two day energy survey off the coast of Louisiana on Monday and Tuesday, June 29-30. King and other Members of Congress will visit the Outer Continental Shelf (OCS) on Monday to learn more about offshore oil and gas production and coastal erosion, and receive briefings on Tuesday from the Minerals Management Service (MMS) regarding offshore drilling and the leasing process.

WHAT: Energy Survey of Outer Continental Shelf (OCS) and Offshore Drilling Facilities

WHO: Congressman Steve King and other House Members

WHEN: Monday and Tuesday, June 29-30

WHERE: The Outer Continental Shelf off the coast of Louisiana

To set up an interview with Rep. King during or after the tour, please respond to this email or call 202-225-4426. Congressman King will have brief periods of availability during the energy survey.
