

King: "More of the Same without Solutions in Sight"

Wednesday, January 25, 2012

Washington, DC- Congressman Steve King (IA-05) released the following video statement in response to President Obama's State of the Union Address tonight:

"I'm not very optimistic about going through more of the same without solutions in sight," said King. "And the President, of course is to make the case why he should be elected President. We know that three years ago he said that if he hadn't solved this problem by now, he would be a one term President. It doesn't look like he's going to stick by that willingly, but the American people will remember in November."
